

NS - NUT SPLITTERS

Capacities from 1¹/₁₆" to 2¹⁵/₁₆" AF

Working pressure 10000 PSI

Compact & easy to use

The improved NS range of hydraulic nut splitters offers a choice of 5 models suitable for hexagon nut AF sizes from 1¹/₁₆" to 2¹⁵/₁₆" [1/2" to 1 7/8" bolt sizes]. The revolutionary design incorporates a hardened steel linkage that ensures the blade cutting edge is kept parallel to the nut throughout the splitting process which improves operational efficiency and more importantly, blade life. Designed to easily split corroded nuts up to RC44 hardness, Hi-Force nut splitters offer the ideal 'cold cut' solution for removing worn or corroded fasteners, especially in applications where 'hot work' permits are not allowed. Models NS104 and NS110 are supplied fitted with a unique 360° positional swivel coupling for easy adjustment and fitment in confined spaces. Suitable pumps are detailed on pages 27 to 48.

- >> Angled body design on all models
- >> Provides necessary clearance on flanges and flat surfaces
- >> Manufactured from high quality steel
